Response to Amendment

1. In response to the Office Action mailed 05 March 2008, applicant submitted a response filed 07 July 2008, in which the applicant amended claims 116, 123, 129, 136, 143, 146, 150 and 168-179 without adding new matter. Claims 180-183 have been added.

Response to Arguments

2. Applicant's arguments, see pages 13-19 of remarks, filed 07 July 2008, with respect to the claims have been fully considered and are persuasive. The rejection of 05 March 2008 has been withdrawn.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 116-121, 123-127, 129-134, 136-141, 143-148, 150-154 and 168-183 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. After a cursory inspection of the specification, there appear to be two mentions of an index (paragraphs [0224] and [0373], in reference to the Pre-Grant Publication US 2004/0049379 A1). However, in the examiner's determination, these passages do not clearly describe 'wherein each of the plural

available types of multi-channel transforms specifies a different transformation across plural channels for values at a given index in the plural channels.'

Allowable Subject Matter

5. Claims 116-121, 123-127, 129-134, 136-141, 143-148, 150-154 and 168-183 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
